Context

This is an elective course intended for students in the fields of Education and Social work who wish to improve their competence and gain confidence when using English in their respective academic and professional lives. By passing this subject, students will reach a B2 level in English, which is a requirement to successfully acquire a Degree in Education or Social work. Given its specific scope, this subject will primarily focus on the reading comprehension and writing of specialised texts in the areas of Education and Social work, although attention will also be devoted to speaking and listening skills in related contexts. The aims of this course are:

- To enhance the ability of students to understand scientific articles and books in English, especially in the field of Education and Social work.
- To familiarise students with the specific terminology in their area of specialisation.
- To make students capable of producing texts in English related to the professional fields of Education and Social work.
- To improve students' oral skills in English in a work-related context, which will allow them to talk and discuss on Educational and Social work related issues.
- To enhance students' listening skills so as to make them capable of understanding a variety of registers, interviews, talks, and lectures on their fields.

According to the rules of the UIB, in order to obtain a Bachelor Degree students need to prove at the end of their studies a level of competence in English equivalent to a B2 level established in the Common European Framework Reference for Languages (CEFR), as it has been established in the Degree's requirements of their respective curricula. In order to attain this knowledge, students must pass the specific English language course of their Degree. Students may also prove their English skills by means of:

- Presenting a valid certificate or recognized degree by the UIB, attesting the achievement of a minimum level of English equivalent to B2 established in the Common European Framework Reference for Languages
